

Silvestri Fabrizio

A quick learner with a passion for coding and wide experience with web applications. I excel in collaborative environments, employing empathetic leadership to encourage positive team dynamics and emphasizing team well-being to boost motivation and productivity.

PROFESSIONAL EXPERIENCE

Full Stack Engineer, Mevisio AB – Stockholm

AUGUST 2024 - PRESENT

Contributing in a cross-functional team, developing and maintaining Mevisio's data visualization platform. Responsibilities span across frontend (React), backend (NodeJS), infrastructure management (AWS & Kubernetes) and monitoring tools (Grafana & Coralogix).

Engineer Manager, Moank AB – Stockholm

MAY 2023 - JUNE 2024

Managed technology initiative, implemented strategic plans for business objectives, and collaborated with executive leadership for long-term organizational growth. Monitored the services and led the developers team.

Tech Lead Engineer, Moank AB – Stockholm

OCTOBER 2021 - MAY 2023

Developed the NodeJS APIs, implemented infrastructures in AWS, enhancing CI/CD application flow with CircleCI and GitHub Actions. Led team meetings for progress review and goal setting, utilized strong interpersonal skills to promote positive team relationships.

Full Stack Developer, Moank AB – Stockholm

AUGUST 2018 - OCTOBER 2021

Designed responsive and user-friendly React interfaces, managed NodeJS APIs conducting unit testing with Jest, optimized MongoDB database structures for high performance, mastered Git for collaborative teamwork.

EDUCATION

Bachelor of Science in Computer Science

SEPTEMBER 2014 - JULY 2018

University of Genoa, Genoa – Italy

LANGUAGES

Italian (Native) – English (Professional) – Swedish (Beginner)
